[Ophelia](#), the rooftop lounge located on the 26th floor of the Beekman Tower in Midtown East will be completely transformed this winter to resemble a shimmering snow globe in the sky. Designed to resemble an illuminating jewel box, the glass encased rooftop lounge will be decked out with magical holiday adornment evoking the feeling of being inside a snow globe. Expect garlands with thousands of crystals and sparkling snowflakes suspended from the 17-foot-tall ceiling in the main bar area and greenhouses, white sheepskin throws covering all of the plush furniture, golden candelabras and more.

Taste new decadent cocktails like the Rising Star, with cognac, rum, cinnamon simple syrup, and lotus cookie infused cream, the Fireside, with whiskey, kina lair d'or, lillet bloc, suze, and orange bitters, and desserts like churros and tiramisu.

*Timing: Mid-November through the end of January*
